Connected to USB 3.0

☑ Show notifications to connect using Swift Pair

When selected, you can connect to supported Bluetooth devices
quickly when they're close by and in pairing mode.

☐ Download over metered connections

☑ Let Windows manage my default printer

When this is on, Windows will set your default printer to be the one
you used most recently at your current location.

☐ Download over metered connections

To help prevent extra charges, keep this off so device software
(drivers, info, and apps) for new devices won't download while
you're on metered Internet connections.

Find and manage devices

If you've installed a new printer or scanner, but can't get it to work, try searching the Internet for device drivers.
